

My host family

My host family was really nice. The parents were about 50 years old and the two children, a girl and a boy, about seven years. They were really shy so we didn't talk so much with the children. But the parents were very friendly and polite. Most of the time the man was in the fish and chips shop and the woman looked after the children. I think, I had really good luck with my host family and I really liked them.

My day in Portsmouth

After school in Worthing we went to Portsmouth. First my class and I visited the ship HMS Victory and another ship too. It was really interesting, because we could see, how the life was, for the sailors on the ship in earlier times. We saw the hammock where the sailors slept and many other things too.

After the visit my class and I went to an adventure park. It was really great because there were a lot of different things like an obstacle course. I think this day was one of the best days in the whole week.

Dear Mum, Dear Dad,

It is great in Worthing. We have seen so many things here like the London Eye, Big Ben, London city, Madame Tussaud's, the HMS-Victorian ship and Worthing.

London was great! We went shopping and we watched the musical „The Lion King“. The musical was exciting.

My host family is soooooo lovely ! But: I am also happy to see you again next week.

Yours,

Valentina
